

## Project Study Limits

## Project Goals

The goals of this project are to:

- ❖ Define and develop long-term transportation solutions for SR-92.
- ❖ Seek input from the communities, agencies, and government leaders regarding the needs of the corridor and possible solutions. That input, where applicable, will be incorporated into the development of alternatives.
- ❖ Define solutions that address current and future regional travel needs while meeting the transportation needs within the cities of Lehi and Highland.
- ❖ Educate and inform stakeholders on the scope of this project and the environmental process.
